 [linkedin.com/in/justin-christenson](https://linkedin.com/in/justin-christenson)

Dynamic mid level full stack web developer with over 5 years of industry experience and a comprehensive knowledge of the entire SDLC on the LAMP stack. Passionate about building efficient, data driven applications and continually improving my skill set to stay at the forefront of web development. Proficient in multiple languages including HTML, CSS, Javascript, PHP, and SQL. Adept at rapidly adapting to new environments and languages.

## Experience

10-2015 - present

### ● **Web Developer**

*expresscopy.com*

- Successfully handling product launches and application maintenance across more than 5 code bases.
- Migrating applications to a modern MVC framework.
- Planning, implementing and debugging RESTful API features.
- Integrating with third party APIs.
- Maintaining and resolving issues on a variety of development and production servers.
- Developing, optimizing and debugging SQL queries and stored procedures.
- Participating in peer code review process.
- Leveraging version control and continuous integration tools to improve workflow efficiency.

11-2014 - 04-2015

### ● **Lead Developer**

*KindTyme*

- Worked with a team of graphic designers, front end developers and a project manager on a wide range of projects to ensure timely delivery of websites to clients.
- Leveraged the Laravel framework to provide a highly maintainable web application for internal use.
- Engineered and maintained database, web and mail servers.
- Leveraged jQuery and SCSS to develop cross browser compatible solutions.
- Participated in peer code review process.
- Migrated client websites to Wordpress installations.
- Facilitated deployment of client web applications from development and staging environments to production servers.

04-2013 - 11-2014

### ● **Front End Developer / Support Agent**

*Dealer Spike LLC*

- Worked with clients to implement updates and new features to hundreds of high traffic websites.
- Leveraged jQuery, HTML, CSS and SQL to rapidly delivery updates to client websites on a Microsoft stack.
- Deployed websites from a staging environment to production servers.
- Managed DNS records for hundreds of client websites.
- Served as a resource to peers.
- Debugged and resolved issues in public facing websites.

## Education

05-2007 - 09-2011

### ● **The Art Institute of Pittsburgh**

- Web Design and Interactive Media - Associate of Arts and Sciences
